### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marc McSwain on August 18, 2008.

The application has been amended as follows:

In the claims:

Cancel claims 1, 2, 4-7, 19-33, 35-41, 51-61, 64 and 65.

Replace claim 67 with the following:

67. (currently amended) A system for editing, comparing, and resolving, equations comprising:

a communications network;

at least one teach computer;

a plurality of student computers; and

a comparison device including a computer-readable storage medium containing program instructions for implementing a comparison application comprising one or more program instructions for performing the steps of:

receiving a response from one of the plurality of student computers via the communications network; and

Art Unit: 3714

comparing the response with the one or more answers corresponding to the question description;

wherein each student computer, each teacher computer, and the comparison device are operably interconnected via the communications network;

wherein each teacher computer includes an input device, a display, and a further computer-readable storage medium containing program instructions for implementing a teacher equation editor application comprising one or more program instructions for performing the steps of:

receiving a question description via the input device;

storing the question description;

receiving one or more answers corresponding to the question description via the input device, wherein each answer includes one or more of an equation and an expression;

storing the one or more answers;

receiving the response;

rendering the response into a rendered expression; and

displaying the rendered expression on the display of the teacher computer.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not reasonably teach or suggest the specific combination of elements as presented in the pending claims. Though the prior art of Alcorn teaches a means by which a teacher can

Art Unit: 3714

create questions using a teacher equation editor program, there is no mention that the teacher computer can receive the response from the student, render and display the response as a rendered expression at the teacher computer. The system of Alcorn creates multiple choice type questions, the answers of which do not require a rendered expression in order to be viewed or graded by the system/teacher.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathleen Mosser whose telephone number is (571) 272-4435. The examiner can normally be reached on M-F 8:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pezzuto can be reached on (571) 272-6996. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
